

# WAI MONG (RAYMOND) KWAN

## Summary

---

Highly motivated and efficient individual, with solid skills working with Javascript and the MERN stack, both independently and collaboratively; experience with multiple programming languages; planned, managed and developed web applications in a team-based environment. Works well in complex, dynamic, and deadline driven environments. Exceptional verbal and written communication skills, fluent in English, Mandarin, and Cantonese. Internationally experienced, flexible and adaptive to varying environments both culturally and physically.

## Employment

---

**Oracle (China) Software Systems Co., Ltd.** Shanghai, China  
**Marketing Intern** July 2015 to Aug. 2015

During my time as an intern at this company I:

- Increased efficiency of the company by translating multiple product information brochures from English to Chinese for coworkers, which are still in use today.
- Increased knowledge and insight of the essential departments and operations of an organisation; senior coworkers have guided and taught me the general operations of the corporation.
- Developed myself significantly as an individual regarding being a part of a team and as a member of the workforce.
- Received a letter of recommendation from senior staff. (available upon request)

## Projects

---

**Web Application: SMARTS** Sept. 2018 to Sept. 2018

LHL midterm project: A smart todo list which sorts tasks based on one of five categories using multiple npm packages and a trained model.

NodeJS, JQuery, AJAX, Bootstrap, Natural.js, Express, PostgreSQL

## Volunteering

---

**Chinese Undergraduate Association UTM ·** Oct. 2014 to Oct. 2015  
**Media Associate**  
**University of Toronto**

Helped with the production of media contents (Photoshop, Illustrator) for the promotion of events hosted by the association.
